

Since 2010,
BMC has developed
and manufactured medical devices
of all levels of complexity,
adopting innovative technologies,
and creating designs that improve
performance and
effectiveness.

We are a Strategic Hub:

- We are located in Monterrey, Nuevo León, México.
- Less than 2 hours from the US border.
- Less than 3 hours away are more than 16 border bridges with the USA.
- Connectivity with the main seaports such as Tampico and Veracruz Monterrey don't present any climatological affectation (earthquakes, hurricanes, etc.)
- Share the same time zone with US.
- Many well-known brands choosing it as their manufacturing location, such as Tesla, Kia, LG, among others.
- Just 10 minutes from the Mariano Escobedo International Airport, which has direct flights to Europe and the US.
- Truster partner: we accompany and give advice on regulatory efforts.
- We have logistic support.
